Why PET International, Inc. vs PET Mobility Project USA?

The PET Mobility Project, under the visionary leadership of co-founders Mel West and Larry Hills, is experiencing extraordinary growth. New PET assembly sites, now referred to as PET Affiliates, are being established throughout the USA and beyond. Missionaries Delbert and Sandy Groves are directing the New Life PET Shop near Kitwe, Zambia, and some folks in the United Kingdom are working at establishing a PET Affiliate there. PETs are also being made in Cape Town, South Africa and in Mexico. Just days ago a serious inquiry came from India.

It was apparent PET needed an umbrella organization to coordinate its growth, maintain quality control over PETs being built throughout the world, and a host of other issues common to a growing ministry/business. The name of the organization was never an issue—it had to be PET International, Inc. Now with a committed team of several hundred volunteers scattered around the world, a formal organization governed by a Board of Trustees and staff, PET is about its main thing—giving dignity, hope and mobility to the millions in need.

The following excerpt from a letter from missionaries Delbert and Sandy Groves is but one of many received each week:

Dear Friends:

February 23, 2006

The United Methodist Committee on Relief (UMCOR) group in Lubumbashi, Democratic Republic of Congo (DRC) has been helping us locate and distribute PETs in that country. This last truck load (pictured.....) arrived in war zone areas in the DRC called Pweto and Moba thanks to their help.

...To find ways to locate these special people and identify that they can be helped by a PET bike is one of our hardest jobs. We are so thankful for the individuals, churches, and groups like UMCOR, that help locate and distribute the PETs. We have estimated that within the Copper Belt area alone there are over one hundred

Purpose: The promotion of PET vehicles for individuals with disabilities who have no appropriate means of mobility; to coordinate PET work sites where PETs are constructed; to assist in the dissemination of vehicles to international agencies/sponsors.

PET Affiliates

- PET MO—Columbia
- PET FL—Penney Farms
- PET TX—Luling
- PET TN—Murfreesboro
- PET FL—Tampa
- PET Southwest MO
- PET NY—East Jewett
- PET WA—Inland Northwest
- PET KS—Moundridge
- PET FL—Jacksonville
- New Life Center—Zambia, Africa

PET International, Inc.

thousand people that can be helped with a PET bike.

We want to say thank you to all of our partners that prayerfully and financially support the PET ministry. You are really changing lives in the most remote areas of the world. Nothing says "God loves you and so do I" like a PET does. It's possible the only Jesus they will ever see may have three wheels...

*Thank you!! Building His kingdom, Delbert and Sandy Groves

THE EVOLUTION OF THE P.E.T.

The Evolution of the P.E.T. is a newly released 27 page, photo illustrated, booklet/report authored by Larry Hills that chronicles the history of PET. This historical account clearly illustrates the sincerity of the PET ministry from its inception over 10 years ago. Mel West and Larry Hills have and continue to strive to make the PET the very best and appropriate means of mechanical mobility for the recipients and their environment. All who support PET will find the report interesting and confirming. It is a must read for any individual or group thinking about becoming a volunteer parts maker, starting a new affiliate assembly site, or being a PET advocate and promoter. Larry set the price at \$10.00 per copy--\$5.00 cost plus a \$5.00 donation to PET! He never passes up an opportunity!!

TRUSTEES OF PET INTERNATIONAL ASSUME RESPONSIBILITIES

Pet Intl. has chosen to use the word "trustee" when referring to the members of its governing organization. I like that use of the word for it aptly describes the position. PET Intl. is a 501c3 and the federal government **trusts** it to fulfill its legal obligations. Donors **trust** the organization to get the most from their charitable donations. Recipients and potential recipients **trust** their future to the hope given by the promises of PET. Partner organizations **trust** PET Intl. to work with them in honest, open, ethical and Christian ways.

President of the Board, Jim Wrinkle, is a man who has combined a business career with humanitarian work in his own community and around the world. Steve Baima, Volunteer Executive Director, with degrees in Biology, has worked in a broad spectrum of private and governmental jobs. Both Jim and Steve have a high degree of passion for PET.

Every trustee of PET International shares that same passion and is deeply involved in the actual work of making and shipping PETs. Dear Readers, the trustees are worthy of your trust and need your support for the amazing challenge ahead of us.—*Mel West, Trustee*
